

JOHN ROBERT GAUFO

San Roque, Sta. Magdalena • Sorsogon, 4709 • johnrobertgaufo1@gmail.com • (63) 919-449-8333

Education

Sorsogon State University

Bachelor of Science in Information Systems

T. De Castro Street, Zone 8, Bulan, Sorsogon, Philippines

June 11, 2026

Experience

Sorsogon Provincial Disaster Risk Reduction and Management Office

IT Intern

Arnedo Street, Capitol Compound, Brgy. Burabod,

Sorsogon City, Philippines

January 2026 – April 2026

- Develop four web-based information systems, including a 911 Emergency System, ICT Inventory System, Network-Attached Storage (NAS) System, and Directory System, supporting office operation and information managements.
- Installed, tested, and validated structured LAN cabling and network equipment, ensuring reliable end-to-end connectivity across office infrastructure.
- Assisted in network installation and maintenance activities, including patch panel termination, cable routing, grounding, and infrastructure organization.
- Assembled and organized server racks and data cabinets, improving cable management, equipment accessibility, and system reliability.

Capstone Project

Project Leader and Programmer

T. De Castro Street, Zone 8, Bulan, Sorsogon, Philippines

June 2024 – December 2025

- Led a four-member capstone team while independently designing, developing, testing, and deploying a full stack service management system.
- Developed a knowledge-based troubleshooting and appointment management system using PHP, MySQL, HTML, CSS, and JavaScript.
- Gathered, analyzed, and translated stakeholder requirements into functional system specifications.
- Implemented database structures, user authentication, appointment scheduling, and troubleshooting modules to improve service management processes.
- Performed system testing, debugging, and troubleshooting to identify and resolve technical issues.
- Prepared technical documentation, project reports, and system presentations throughout the software development life cycle.

Skills & Interests

- **Operating Systems:** Windows
- **Networking:** LAN installation, structured cabling, patch panel termination, network troubles
- **Databases:** MySQL, phpMyAdmin
- **Web Technologies:** HTML, CSS, JavaScript, PHP
- **Development Tools:** VS code, Antigravity IDE, XAMPP
- **Interests:** Information technology, system administration, cybersecurity, web development, graphic design
